

NAVIGATING knowledge LANDSCAPES

27
APRIL

International Conference on Health and Person-Centered Care in the Digital Society

At Thon Hotel, Langbrygga 1, 1767 Halden, Norway

Navigating Knowledge Landscapes is an international trans-disciplinary research network with focus on health in the digital society. An aim of the network is to develop international and trans-disciplinary collaborations which will explore the area of on-line and off-line communication and distribution of health and biomedical information and knowledge. This includes the development of analytical tools and theoretical perspectives so that we can better understand, analyse and govern health in present society.

8:30–9:00 **Registration** 9:00–9:30 **Welcome** 9:30–9:50 **Health and knowledge in digital society**, on navigating Knowledge Landscapes 9:50–10:10 Knowledge Landscapes **Geography** 10:10–10:30 The Exploration of **Visual Analytics** in Navigating Knowledge Landscapes 10:50–11:10 The **human reproduction** in the digital communication: Promises and traps at the intersection of **science, rights and social needs** 11:10–11:30 **Negative effects of social support** - the case of inflammatory bowel disease 11:30–11:50 Dubbing national **eHealth** project: the case of Slovenia 13:00–13:40 **Panel Session Health narratives** and knowledge landscapes; DIPEX International; • **Contextualising patients' knowledge claims: Health Talk Norway** 13:40–14:00 Towards understanding **the digital mental health knowledge landscape**: Two studies of self-care apps and Twitter advocacy 14:00–14:20 **Integrative bioethics**, knowledge, and digital society 14:40–15:20 **Panel Session Patient Autonomy** and Knowledge Landscapes; Digital Society – the tension between **child protection** and **children's agency**; The **filter bubble** and its effect on online **personal health information** 15:20–15:40 **Successful Companies understand** the value of content 15:40–16:00 **Technological requirements** for health related navigation in knowledge landscapes 16:00–16:20 **Tracing** the 'doing' of **risk online** 16:20–16:40 Spiritual needs and **compassionate care** of patients
